

WOMEN BUILD

Women Build 2026 – Teams Points Challenge

Basic Concept

A Women's Build team must generate a certain number of points to have a day (or more) scheduled on the construction site of the Women Build home under construction.

To make it simple, \$1=1 point.

The more points a team generates, the more team-build days they will have on the jobsite.

Also, during our Women Build celebrations, teams can win prizes in numerous categories, including number of points earned and amount of money raised.

Goals

The overriding objective for each team is to raise resources necessary to help a local family achieve their homeownership dream...and to have fun doing so!

The goal for each team will be to earn 5,000 points or more (\$5,000+). The more money raised, the more days on the job site the team can earn.

Sponsorship levels are:

- Welcome Home Sponsor - \$25,000 or more (4 build days)
- Framing the Future Sponsor - \$15,000 (3 build days)
- Kitchen Table Sponsor - \$10,000 (2 build days)
- Foundation Sponsor - \$5,000 (1 build day)
- Nuts & Bolts Sponsor – \$250-4,999 (fill-in build day)

Teams generating the most points/raising the most money will get first choice of which build days they prefer. We'll tentatively begin scheduling in February. Scheduling will be continuous throughout the construction period, which will likely last 4-6 months.

WOMEN BUILD

Ways to Generate Points

First and foremost, ask people and companies to donate to Habitat via your team. Donations are 1:1 in generating points for your team.

There are also certain donations that are worth more points than 1:1.

- During Avenues for Hope (December 8-31) all donations generated by your team are **doubled!**
- If one of your donors commits to making a monthly donation, you will get credit for that monthly donation **x12!** (If someone commits to \$10/month, you'll be credited with 120 points!)
- If you help generate a business sponsorship (see the Sponsorship levels), your team will be credited with points **equal to that sponsorship!** Not only that, if the business/organization sponsors at \$5K or more *they* will receive a build-day for their team, too!
- If your team helps Habitat secure an in-kind donation contributing to the construction of the home, your team will be credited with the **full value** of that in-kind donation! In-kind donations help off-set overall costs of construction, which helps create affordability for the partner family. Any in-kind donation that helps further the mission of Habitat counts (not just construction)!
